CHINA AND MOZAMBIQUE
FROM COMRADES TO CAPITALISTS

The wide range of reactions to greater Chinese involvement across Africa has varied from enthusiastic embrace by elites to caution from businesses, trade unions and civil society, and even hostility from some local communities. As a once-modest presence in Africa, China has rapidly grown to become one of Africa's top trading partners. Two-way trade surged from just over US\$10 billion in 2000 to nearly US\$200 billion in 2012.

China and Mozambique moves beyond the conventions of general surveys on China-Africa relations to explore real content and experiences of China's relationship with Mozambique. This book unpacks the complex and sometimes contradictory policies of this relationship, looking at Chinese investment in the Mozambican banking sector and at elite business alliances in agriculture and infrastructure.

A fuller sense of bilateral relations is offered through the focus on this emblematic case; it drills down into the heart of a relationship whose growing depth and complexity exposes key themes that will affect Africa's future development.
